10. Is a human an organ? /(They) (Them)/ /(It) (Us)/ /(is) (is not)/ an organ.		
11. Is the organ the same as the organ system? /(They) (Them)/ /(It) (Us)/ /(is) (is not)/ the same as an organ system.		
12. Is a living organism complete? /(They) (Them)/ /(It) (Us)/ /(is) (is not)/ complete.		

Word box: round, chromosome, cells, alike, nucleus, cell wall, unlike, living, smaller, chloroplasts, cell membrane, cytoplasm, both, larger, rectangle

Paragraph: Plants and animals (is) (are) made of cells. (They) (Them) (It) (Us) (is) (are) the same or _____. (They) (Them) (Us) (It) (have) (had) a _____, _____, _____ and _____. The plant cell (is) (are) different or _____. (They) (Them) (It) (Us) (has) (had) a _____ and _____. The plant cell (is) (are) _____ and _____ (shape). The animal cell (is) (are) unlike or different. (They) (Them) (It) (Us) (did not) (does not) have a _____ and _____. The animal cell (is) (are) _____ and _____ (shape.) _____ of (they) (them) (it) (us) (is) (are) part of _____ things.

Speaking / Listening

Topic: Living and Non-Living Things

Living things can move, grow, reproduce, and breathe. Living things use energy. Living things are made of cells.

(a) *Think:* Make a list of living and non-living things.

<i>Living Things</i>	<i>Non – living things</i>
Tree	Car

(b) *Talk.* Put your list of living and non-living things on the chart. Put an “X” if the living or non-living thing can do each action.

<i>Living / Non-living...</i>	<i>Move</i>	<i>Grow</i>	<i>Reproduce</i>	<i>Breathe</i>	<i>Use energy</i>	<i>Made of cells</i>
Tree	X	X	X	X	X	X
Car	X				X	

The difference between living and non-living things

<i>Why are some things living?</i>	<i>Why are some things non-living?</i>

(c) *Share:* Use your charts to complete the paragraph. Share the paragraph with the class.

Living things are _____, _____

and _____. These are living things because they

_____, _____

and _____. Non-living things are

_____, _____

and _____. These are non- living things because they

_____, _____

and _____.
